

# MINISTER
## OF PETROLEUM

Suez Safety Outfitters SSO Team , would like to thank his excellency, the minister of petroleum and mineral Resources Eng. Tarek el Molla, for his continuous support.

PRODUCING
SAFETY

# TYPES OF PPE

**1-Head Protection**
Hard hats and headgears and should be required for tasks than can cause any force or object falling to the head.

**2- Face and Eye Protection**
Safety goggles and face shields should be used for tasks that can cause loss of vision and an eye, burns, splashes, sprays of toxic liquids etc.

**3- Foot Protection**
Knee pads and safety boots should be used for tasks that can cause serious foot and leg injuries from falling or rolling objects, hot substances, electrical hazards and slippery surfaces.

**4- Hands Protection**
Safety gloves should be used for tasks that can cause hand and skin burns, absorption of harmful substances, cuts, fractures or amputations.

**5- Body Protection**
Safety vests, suits and Fire-Retardant Coveralls should be used for tasks that can cause body injuries from extreme temperatures, flames and sparks, toxic chemicals, insect bites and radiation.

**6- Hearing Protection**
Ear muffs and plugs should be used for tasks than can cause hearing problems and loss of hearing.

**7- Fall Protection**
Safety harnesses and lanyards should be strictly used for task that can cause falling from heights and serious injury or death.

**8- Respiratory Protection**
Respirators should be used for task that can cause inhalation of harmful materials to enter the body.

Head Protection
Face and Eye Protection
Hands Protection
Body Protection
Foot Protection

# Fabrics & Garments

## SSO worked closely

with material suppliers and field experts to compile a comprehensive garments offering that serve a variety of applications and produce a variety of high quality garments designed with the wearer's Safety as the fore front.

All garments are tested to meet ASTM standards to ensure customer's employees safety and to care for our community & environment.

Many Garments are available to be customized to suit all customers' needs where, some garments are designed not only to provide chemical resistance but offer some protection from ambient heat sources. We also offer custom imprints that are permanently sealed to the garments which remain intact when washed, exposed to light or rubbed. Also, the color quality, sizes and shape are not affected.

All garments are designed, fabricated and treated to protect our customers against hazards caused by extreme changes in physical environment, dangerous working conditions.

Don’t be Safety Blinded,

**Be Safety Minded**

# Coverall

## One Piece

100% cotton or mixed Cotton – polyester coveralls offer comfort and protection with high performance fabric and color fastness that stands heavy duties and provide shrinkage resistance.

The coverall is constructed with high visibility reflective tape double stitched for enhanced visibility.

**Bartacks at stress points**

**Two - way heavy duty zipper with metal snap closure at top**

**Elasticized waistband in back**

**Reflective Tape: 2.5 cm or 5 cm Width.**

Tested to meet ASTM standards

# Fire Retardant

| | |
|---|---|
| **PRODUCT NAME** | SSO Fire Retardant Aramid 200 coverall |
| **FABRIC TYPE** | FIRE RETARDANT FABRIC |
| **FABRIC WEIGHT** | 200 gsm (+/- 5%) |
| **FABRIC COMPOSITION** | 93% Meta-Aramid - 5% para-Aramid - 2% Antistatic |

## Description

Constructed from Flame resistant fabric of 93% meta-aramid that provides permanent heat & Flame resistance properties without a chemical treatment and won't diminish with washing, 5% para-aramid for tensile strength and 2% antistatic by incorporating carbon fiber suppresses static charge, thereby preventing sparks which might cause a fire or explosions.

| Main Features | Description | Test Standard |
|---|---|---|
| Heat and flame protection | Inherent flame-resistant fabric with strong overall thermal protective performance | EN ISO 11612 A1B1C1 |
| | | EN ISO 14116 |
| Electrostatic | Antistatic clothing suppresses static charge, thereby preventing sparks which might cause a fire or explosions | EN – 1149 -5 |
| Welding and Allied | Clothing for Welding and Allied Processes | EN ISO 11611 Class 1 |
| Anti-static | | EN- 1149 -3 |

# PPE

# SPECS

# Gloves

## Protective Gloves: against chemical and micro-organisms.

**EN 374-1:2003**

**This European standard specifies the requirements for gloves to protect the user against chemicals and / or micro-organisms and defense terms to be used./ specifies a test method for the penetration resistance of gloves that protect against chemical and / or micro- organisms./ specifies the determination of the resistance of protective gloves materials to permeation by potentially hazardous non – gaseous chemicals under the conditions of continuous contact.**

## PROTECTIVE GLOVES AGAINST MECHANICAL RISKS

**EN 388 _ 2016**

**EN388:2003 Standards specifies physical and mechanical aggression caused by abrasion, blade cut, tearing and puncture. EN388:2016 updates the existing standard with this new test method for abrasion, blade cut & impact resistance. EN ISO 13997:1999 (TDM test) records cut results as a Newton value - the force of the blade on the glove material needed to cut through the material 20mm. The results are represented on a scale A-F.**

# Welding Protection

## Gloves

Premium Quality Leather welding gauntlet with full cotton internal lining about 30 cm for comfort-provide, protection for basic welding needs.

**Comply with**
EN388 – EN 407 – EN 12477

# PVC Palm Dots for Superior Grip

Light weight, comfort-able glove with PVC dot-ted palm for enhanced grip and is ideal for dry handling

Gloves

**Comply with**
EN 420 – EN 388

# Padded PVC

Gloves

For Chemical and Acidic protection, with textured pattern for enhanced grip& lined for added comfort.Tested for anti-abrasion

**Comply with**
388 – EN 420 - EN 374-1

# Cut resistant

Combining maximum cut resistance with the ultimate in comfort when working with sharpness and provides good tear and abrasion resistance.

Gloves

**Comply with**
EN420 - EN388

# Riggers Gloves

Offers the necessary hand protection and metal usage protection with comfort, soft, supple grip with a good tear and abrasion resistance.

**Comply with**
388 – EN 420

# Thermal Hand Protection

Perfect for construction, transportation, maintenance, has warm acrylic liner for enhanced warmth.

Gloves

**Comply with**
388 – EN 420 – EN 407

# SAFETY SPECTACLES

Adjustable Arm(s)
(or Temple)
Top Shield
Frame
Bridge
Anti-fog
Impact-resistant
Lens(es)
Lens Marking
Side Shield(s)

# Polycarbonate Spectacle

- Excellent protective coverage, aids in preventing strange objects resulting from carving iron.
- Anti-fog
- Anti-Scratch
- UV Protection

Available in (transparent or Dark)

Comply with EN166

# Anti- Dust & Anti – Chemical

SafetySpectacle

Transparent lens, Excellent fitting goggle with clear field of vision and Superior protection against harmful splashes and dust particles.

Comply with EN 166

# High Performance Safety Spectacle

Expertly designed light weight spectacle with outstanding optical quality. The comfortable nose bridge allows for extended use also, the single wrap – around lens offers protection from the sides and front.

Anti-fog
Anti-Scratch
UV Protection

Available in (transparent or Dark)

Comply with EN 166 1FT / EN 170 2C-1.2 (CLEAR) / EN 172 5-3.1 (SMOKE)

# Grey Lens spectacle

SafetySpectacle

Comfort safety glasses ensure a high wearing comfort with anticorrosive coating, anti- fog and anti- scratch for long lasting visual quality and durability.

Comply with EN166

# Over glass spectacle

light weight spectacle, expertly designed to fit over most prescription spectacles with minimal interference, with strong lens featuring, anti-scratch coating for improved vision and with Versatile design for use with a wide variety of prescription spectacles and extended durability with adjustable lens angle.

Comply with EN166

# Helmets

Available with adjustable belt or with wheel ratchet adjustment, sweat band and chin strap included.

Comply with EN 397:1995 – EN 50365:2011

Blue Red Orange White Grey Dark Green

# PVC Safety Boot

High safety boot, Injected PVC material and provided with Complete water resistant, Anti-shock, antistatic, anti-slipping.
Available with or without steel toe cap, stands up to 200 joules.
Available with or without steel midsole (S3), injected PVC resistant to hydrocarbons insole.

Size: (39-46)

Comply with EN ISO 20345:2011

# Hearing Protection

## Classic Ear Muff

High performance ear protection, designed to be both durable and ultra-light weight. filled with sound absorbing foam and comfort head band with comfortable fit

Comply with EN 350-1

Comply with EN 352-2

## Corded Ear Plug

Excellent protection, Comfortable fit soft foam ear plugs with the convenience of a cord. The tapered shape allows for a comfortable and easy fit in the ear canal. Corded for increasing safety and visibility.

# Harnesses

## Safety Ergonomic Harness

Full Body Harness with breathable contoured back pad has quick release connectors making it very easy to put on. Featured with extended ring shoulder strap arrangement for easy fittings and two side rings

Comply with EN361/2002

## Double Lanyard with shock absorber

The double end lanyard has two 180 cm ropes with a tear open energy absorber, two scaffold hooks and one snap hook

Comply with EN 355:2002

# ProtectiveMasks

## Valved Mask

Exhalation valve for lighter breathing resistance. Provided with high level of protection and quality safeguarding against many workplace risks including liquidchemicals, dry particles and radioactive contamination

Comply with EN 149

## Dust Mask

Comfort mask with cup shape with Adjustable nose clip for optimized fit and effective against common household dust and other non-toxic particles.

Comply with EN 149

## Warning Tape

Available in 300 m or 500 m.
(From 100 Micron. – 200 Micron.)

# Protective Suits

## Yellow PVC Suit

Light weight PP Suit with two large pockets
Provides liquid, chemicals and particulate protection
Provides an excellent barrier to chemical spray
The fabric's physical strength and flexibility ensures protection and comfort
Protect from biological hazards, chemical handling, hazardous materials, industrial clean -up and maintenance & nuclear industry and petrochemicals.

Comply with EN 14605 TYPE 3 / EN 14605 TYPE 4 / EN ISO 13982 TYPE 5 / EN 13034 TYPE 6 / EN 14126 / EN 1073-2 / EN 1149 -5

## Disposable Suit

Light weight and durable fabric
Spacious Design to guarantee a good fit and comfort usage
Ideal for short time exposure to oils or to color and paint spraying and helps to reduce the spread of many viruses and germs.
